1. Introduction

The main purpose of this report is to comply with the Pillar 3 requirements as defined by the National Bank of Georgia in line with the Basel III framework. The disclosure of the Bank's basic information is mandatory for all commercial Banks and leads to increased transparency and confidence of the risks facing the Bank and adequacy of supervisory capital.

2. Management Statement

The Bank's Board of Directors confirm the accuracy and the authenticity of all the data and information outlined within this the Pillar 3 Annual Report. The document is prepared in full compliance with the internal processes agreed with the Supervisory Board. It is in line with all the requirements of "Rule for disclosure of information by commercial Banks within the framework of Pillar 3" approved by the Order #92/04 of the President of the National Bank of Georgia, on 22 June, 2017 and other rules and norms established by the National Bank of Georgia.

3. Strategy

The Bank aims to deliver simple, fast, and future-ready banking services for modern customers - seamlessly integrating virtual assets, lending, payments, transfers, and savings into a unified digital experience.

All of this is supported by AI-driven technology. This enables the creation of a banking experience aligned with customers' lifestyles and growth.

The Bank's vision is to develop a sustainable, well-regulated institution with superior service standards, becoming the preferred and trusted partner for its customers.

The business model focuses on income generation from banking services, supported by the Bank's capital and deposits from individuals and legal entities.

The Bank's strategy focuses on high-quality asset growth, product innovation, IT infrastructure development, strengthening human and technical capabilities, maintaining prudent banking practices, and advancing risk management.

The Bank actively focuses on its strategic segments: retail and micro business.

Digitization

The Bank's strategic objective is to develop into a fully-fledged digital banking institution, offering innovative and technology-enabled products and services to its customers.

In recent years, the Bank has undertaken large-scale digitization of the business, including the transformation of its infrastructure through a partial migration to cloud-based services and the implementation of a microservices-based architecture. These developments have significantly improved both the speed and quality of product delivery. In addition, robust data governance standards have been implemented, ensuring efficient data utilization, advanced analytics, and AI-driven decision-making processes. Currently, the Bank serves the majority of its customers through digital channels. In the short term, a number of services are planned to be further migrated to a cloud environment.

The Bank's growth strategy is centered on gradually expanding its customer base by providing products and services meticulously tailored to their requirements. As a one of the key performance indicators, the Bank consistently tracks the growth of Monthly Active Users (MAU) and Daily Active Users (DAU), and the customer loyalty index (NPS).

While its primary services migrate into the digital sphere, the Bank strategically maintains physical branches in densely populated regions across Georgia.

The Bank utilizes several key technological avenues including payments, product innovation, digital Banking services, loyalty programs, and tailored financial services. The focus is on boosting the number of registered and verified customers through digital channels like mobile application, various social platforms, and SMS outreach, as well as on enhancing customer engagement through technology driven loyalty programs and other captivating digital initiatives. The bank believes that higher customer satisfaction, driven by technology-centric solutions, will naturally lead to verbal advertising and cross-selling opportunities.

This comprehensive technological strategy aligns with the Bank's commitment to maintaining a leading position in the ever-evolving landscape of Banking services. Leveraging cutting-edge technologies, the Bank aims to deliver tailored, efficient, and innovative financial services to its clients.

4. Regulatory Capital

The capital requirements for the Georgian Banking sector are based on the Basel III standard, Regulation 575/2013 of 26 June 2013 and Directive 2013/36/EU of the European Parliament and of the Council (CRR-CRD package). The Bank's regulatory capital consists of the following elements: Tier 1 and Tier 2 capital.

The minimum capital requirements are defined in the Regulations on Capital Adequacy Requirements for Commercial Banks, which says that, under Pillar 1, the minimum requirements are defined as follows:

- CET1 Capital Ratio 4.5%;
- Tier1 Capital Ratio (CET 1 + AT1) 6%;
- Regulatory Capital Ratio (CET 1 +AT1+ Tier 2) 8%.

Pillar 2 requirements include the following buffers:

- Non-hedged currency induced credit risk buffer (CICR);
- Loan Portfolio Concentration Risk Buffer (HHI), consisting of nominal concentration and sectoral concentration buffers;
- Net Stress Test Buffer - a buffer set on the basis of regulatory stress tests;
- Credit Risk Adjustment buffer (CRA), which is set due to the transition from the local GAAP to the International Financial Reporting Standards (IFRS). The purpose of establishing a CRA buffer is to reduce the credit risk caused by insufficient expected credit losses set up for assets, and to determine an adequate capital buffer.

Net GRAPE Buffer - a buffer established by the National Bank of Georgia after reviewing: the risks under the general risk assessment program (GRAPE), and results of the Bank's internal capital adequacy assessment process; The purpose of introducing net GRAPE buffer is to determine adequate capital buffers for the risks identified within GRAPE and not covered or inappropriately covered by the Pillar 2 capital buffers.

Additionally, commercial Banks are required to have a combined capital buffer consisting of a capital conservation buffer (2.5%, which Banks are required to meet from January 1, 2024), a countercyclical buffer (commercial Banks are required to adhere to the following buffer rate adjustments: by March 15, 2024, at 0.25%; by March 15, 2025, at 0.5%; by March 15, 2026, at 0.75%; and by March 15, 2027, at 1%), and a systemic buffer.

As at 31 December 2025 and 2024, the capital requirements for Bank's Tier 1 and regulatory capital is following:

Minimum requirements	2025*		2024*	
Pillar 1 requirements	Amount	%	Amount	%

Tier 1	9,812,915	6.00%	11,586,873	6.00%
Total regulatory capital	13,083,886	8.00%	15,449,164	8.00%
Combined buffer				
Conservation buffer	4,088,714	2.50%	4,827,864	2.50%
Countercyclical capital buffer	817,743	0.50%	482,786	0.25%
Systemic risk buffers	-	0.00%	-	0.00%
Pillar 2 requirements				
CET 1	9,724,098	5.95%	18,050,583	9.35%
Tier 1	11,726,050	7.17%	22,669,382	11.74%
Total regulatory capital	14,360,198	8.78%	28,746,750	14.89%
Total requirements				
CET 1	21,990,241	13.45%	32,051,388	16.60%
Tier 1	26,445,422	16.17%	39,566,906	20.49%
Total regulatory capital	32,350,541	19.78%	49,506,564	25.64%

The actual capital adequacy ratios as of the end of the year are:

	2025*	2024*
CET 1	37,775,427	52,965,231
Tier 1	37,775,427	52,965,231
Tier 2**	16,519,721	1,708,780
Total regulatory capital	54,295,148	54,674,011
Total Risk Weighted Assets	163,548,577	193,114,549
CET 1 Ratio	23.10%	27.43%
Tier 1 Ratio	23.10%	27.43%
Total regulatory capital ratio	33.20%	28.31%

*In 2025 and 2024 capital adequacy ratios are calculated based on IFRS standards.

**Tier 2 capital includes subordinated debts, which are amortised for regulatory purposes in their final five years before maturity.

The Bank maintains an actively managed capital base to cover risks inherent in the business. The adequacy of the Bank's capital is monitored using, among other measures, the ratios established by the National Bank of Georgia ("NBG") in supervising the Bank.

The primary objectives of the Bank’s capital management are (i) to ensure that the Bank complies with externally imposed capital requirements set by the NBG, (ii) to safeguard the Bank’s ability to continue as a going concern and to monitor mentioned on a daily/monthly basis with the reports outlining the calculations that are later reviewed and subsequently submitted to the NBG.

The Bank manages its capital structure and makes adjustments to it in the light of changes in the economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Bank may reassess its business strategy or adjust the amount of return capital to shareholders or issue capital securities. Development of digital channels and products is a key priority of the Bank’s strategy.

As at 31 December 2025, share capital of the Bank comprised 1,047,464 of authorized fully paid shares with nominal value GEL 100 each (2024: share capital of the Bank comprised 867,464 of authorized shares with nominal value GEL 100 each, out of which 843,846 authorized shares are fully paid).

5. Ownership and Group Structure

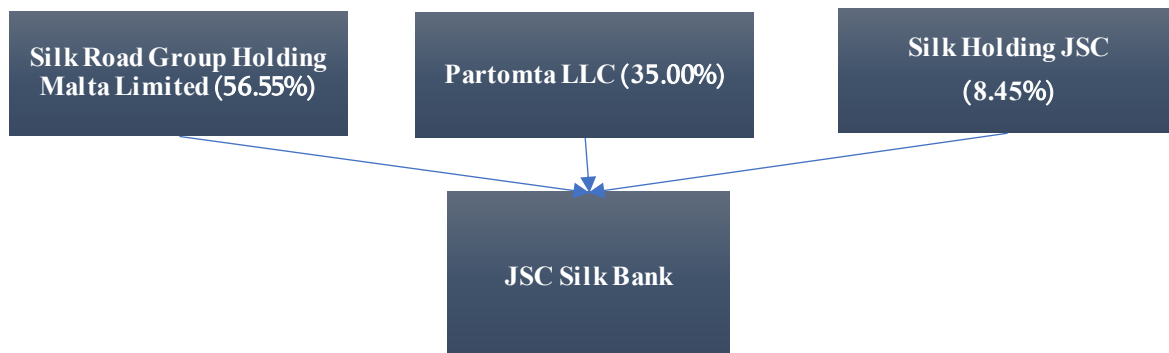

In 2025, the Bank issued a total of 180,000 ordinary shares with a nominal value of 100 Georgian Lari (GEL) each to existing shareholders and increased share capital by GEL 18,000,000, which was fully paid as at 31 December 2025 (The share issuance occurred on February 7 and June 13, 2025, comprising 150,000 and 30,000 ordinary shares, respectively, each share with a nominal value of 100 GEL to its existing shareholders).

As at 31 December 2025 and 2024 the shareholders of the Bank are:

Silk Road Group Holding (Malta) Limited (I/N C41521) with 56.55% ownership of the Bank, Partomta LLC (I/N 404580271) - with 35.00% shares, Silk Holding JSC (I/N 405496404) – 8.45% (2024: Silk Road Group Holding (Malta) Limited (I/N C41521) – 57.63%, Partomta LLC (I/N 404580271) – 35.67%, Silk Holding JSC (I/N 405496404) – 6.70%).

Beneficial owners holding more than 5% of the Bank's shares are Giorgi Ramishvili, Yerkin Tatishev, Aleks Topuria, Aleksander Khetaguri and David Franz Borger.

Ownership and Group Structure as at 31 December 2025:

Silk Bank is a shareholder of JSC United Clearing Center and the member of: Georgian-Swiss Business Association Statute N(N)LE, Council of European Chambers in Georgia N(N)LE, Legal Entity Joint Industry Committee N(N)LE, Banking Association of Georgia N(N)LE.

6. Corporate Governance

The Bank's corporate structure consists by the Shareholders' General Meeting, Supervisory Board and the Board of Directors, each has its own responsibility and authority in accordance with the Georgian legislation and the Bank's Charter. Key objectives in designing the corporate governance structure of the Bank are to warrant the highest degree of transparency and accountability at all levels, and to incentivize agents (directors) to act in conformity with the objectives of the business and its shareholders. The governance structure was designed so as to warrant a clear distinction between the functions of the Supervisory Board and the Board of Directors, which assigns to the former the supervision of the management ("decision controlling"), and to the latter the responsibility for the operative business ("decision management").

The General Meeting of Shareholders

The General Meeting of the Shareholders is the Bank's highest governing body, which elects the supervisory board members, which itself is responsible for supervising the Board of Directors.

Rights of the General Meeting of Shareholders:

- Change of the Bank's charter;
- Amendment of the Bank's authorized capital, trade name, legal address
- Reorganization and liquidation of the Bank;
- The decision on merger or division;
- Restriction of preferred share purchase option for shareholders, during additional capital emission;
- Decision making on distribution of net profit;
- Appointment/dismissal of Supervisory Board members;
- Approval of the Management and Supervisory Board reports;
- Determination of remuneration for Supervisory Board members;
- Selection of an independent auditor;
- Approval of Supervisory Board regulation;
- Approval of acquisition/disposal/exchange of property, if its value is more than 50% of the Bank's total assets.

During 2025, five General Meetings of Shareholders were held, where following matters were discussed:

- Capital increase, issuance of additional shares;
- Amendment of the Bank's charter and its approval;
- Approval of the founding agreement of the Bank;
- Change in the composition of the Supervisory Board;
- Review of the audited financial results of Silk Bank JSC for 2024;
- Review of the activities carried out during the year by the Supervisory Board and the management body of the Bank.

Supervisory Board

As at 31 December 2025 the Supervisory Board consists of five members (none of them are also a member of Board of Directors), of which three (including chairman), are independent members. Supervisory Board members are appointed for 4 (four) years. Re-appointment of Supervisory Board members is unlimited. The

authority of the Supervisory Board member continues till the contract expiration or, after the contract expiration till the General meeting of Shareholders, when the new Supervisory Board member is elected.

The Bank's Supervisory Board is actively involved in the Bank's activities and is systematically informed regarding Bank's important operations.

During 2025, 47 (Forty seven) Supervisory Board meetings were held. The issues discussed and approved included: Issuance of bank guarantees and loans; Attraction of subordinated loans; Extension of the validity period of bank guarantees; Review of the performance and results of the SilkApp; Comparison of the 2024 budget with actual results; Review of business lines and related decisions for 2025; Changes in the organizational structure; Approval of a candidate for the Senior Internal Auditor position; Review of the internal audit report and adoption of the corresponding decision; Disposal of bank-owned real estate; Review of the bank's quarterly results for 2025; Profitability analysis of products; Discussion of capital matters; Review of RS and AML inspection matters; Amendments to the Corporate Governance Code; Initiation of implementing AI agents to support banking processes; Process of selling of SME loans; Changes to the composition of the Audit Committee; Approval of business continuity policy; Analysis of financial results for the first 9 months of 2025; Review and Approval of the 2026 Budget; Approval of the bank's recovery plan; Approval of the Silk Bank JSC's Supervisory Board's self-assessment report, and etc.

Rights of the Supervisory Board:

- Determination of the Bank's business policy, acceptance and approval of policy guidelines;
- Approval the strategic and annual plan of the Bank's development, including the budget;
- Preparation of recommendations for the General Meeting of Shareholders and fulfilment of the tasks assigned by the General Meeting of Shareholders;
- Choose/release the members of the Board of Directors (including general director);
- Approval of internal policies and procedures for creating credit, investment, currency, asset and liability management, asset assessment, their classification and adequate coverage of possible losses. Approval of the the internal provisions of the Bank's Credit Committee, Directorate, Corporate Secretary and Audit;
- Approval of the amount of minimum and maximum interest rates applicable to the Bank's credit resources and deposits;
- Control the activities of the Bank's Management;
- Decision on acquisition, alienation or loading of the property owned by the Bank;
- Decision regarding Bank financing, either through taking loans, issuing bonds, or other forms of finance;
- Request direct reporting from the auditor;
- Approval of acquisition/disposal/exchange of property, if its value is more than 10% of the Bank's share capital;
- Approval of establishment/liquidation of a subsidiary;
- Approval of starting/terminating of new Banking business;
- To fulfill the tasks assigned by the shareholders.

Independence of the Supervisory Board member is determined by the Corporate Governance Code and the Georgian Legislation.

Supervisory Board Diversity

Diversity of skills, backgrounds, knowledge, and experience is important for the Supervisory Board to effectively govern the business. The Bank believes that its size and composition, as well as the size and composition of the Bank's Supervisory Board are appropriate. Each of the Bank's Supervisory Board member occupies, and/or has previously occupied senior positions in a different directions of business, in different countries. When making each decision, all above mentioned, gives the Supervisory Board the opportunity to rely on the personal and varied experience of the Supervisory Board members. The degree of independence of the members of the Supervisory Board, is in full compliance with the relevant requirements of the National Bank of Georgia.

Evaluation of the Supervisory Board, its committees and members

In order to increase its effectiveness, the Bank's Supervisory Board uses the annual self-assessment process and once in 3 years evaluation by external evaluator, which is an important tool for achieving the stated goal. To evaluate the performance for 2025 by external evaluator, the Supervisory Board hired the consulting company - Grant Thornton. The main areas of assessment were the composition of the board and

committees, diversity of members, competence of members, Board charter, Board's work processes, strategic governance, monitoring of systems and processes, implementation of strategic objectives, access to information, communication with the management board, participation in meetings, role of the chairman of the supervisory board, frequency of meetings, risk level management, implementation of control systems, existence of a whistleblowing mechanism and implementation of transactions with related parties.

The assessment of each activity was based on the information received from the Bank, in accordance with the documents, procedures and statutes, and it was determined to what extent the current situation corresponds to the effective functioning of the Supervisory Board.

As a result of the assessment, areas were identified in which the Supervisory Board performed its role and functions well, and it was determined that the activities of the Board are generally effective and in compliance with existing regulations. The Supervisory Board is actively working to improve the issues requiring improvement to eliminate them in the near future.

In 2025, the annual self-assessment of the activity of the Supervisory Board was conducted, within which the Supervisory Board evaluated the following main issues: determination of the Bank's organizational structure; Anonymous whistleblowing system; Defining the Bank's strategy and monitoring its implementation; ensuring compliance with legislation and regulatory requirements; Determination of risk appetite and compliance of risk management with it; monitoring and evaluation of activities/decisions of the Directorate; monitoring of the payment system; ensuring efficiency and independence of controlling functions; development of the Bank's business continuity policy and strategy; control of related party transactions; Supervisory Board meetings; Managing bank's conflicts of interest and ensuring effective communication with supervisor; Discussion of issues that may give rise to conflicts of interest; Formalization of Supervisory Board meetings; and others. The Board's activities are generally efficient and in compliance with existing regulations. The board is actively working on the areas that need improvement.

Board of Directors

The Bank's day-to-day activities are carried out by the Board of Directors. Its members (directors) are appointed by the supervisory board for the term not exceeding 4 (four) years, their re-appointment is unlimited.

The representation power of the Bank is granted to the member of the Board of Directors – directors, who are registered in the entrepreneurial register.

The Board of Directors is authorized to take decisions if the meeting is attended by more than half of the members.

The Board of Directors consists of at least three (3) members, including General Director, and decision is made by a majority of votes. Each member has one voting right. In case of equal distribution of votes, the vote of the General Director is decisive.

Rights of the Board of Directors:

- Supervise lending, financing, cash services, accounting and reporting, internal controls, security, and other majority activities of the Bank to ensure that the Bank provides proper service to the customers;
- To ensure that the Bank provides proper services to clients and to supervise other main activities of the Bank;

- Deal with any other matters assigned to the Board of Directors (or its individual members) by the supervisory board and/or the general meeting of shareholders;
- Develop the policy, normative and other regulatory documents approved by the Supervisory Board and ensure respective compliance with such documents;
- Preparation and presentation of Bank's business plan for approval to the Supervisory Board;
- Appointment/dismissal of employees, including determination of respective reimbursement;
- Invitation of extraordinary General Meeting of Shareholders (upon necessity);
- Approval of the Bank's internal regulations;
- Approval of regulations on for each internal unit of the Bank;
- Develop policies, rules and regulations, which is subsequently approved by the Supervisory Board and ensure enforcement of each regulation.

Audit Committee

The Committee is a permanent collegial body and is fully accountable to the Supervisory Board. The Audit Committee is a significant element of the Bank’s corporate governance system. The Audit Committee supervises the activities of the Internal Audit Department, develops appropriate recommendations for this service and protects the interests of shareholders in terms of the reliability of financial statements. The Audit Committee is responsible for monitoring compliance with the Bank’s risk management policies and procedures, and for reviewing the adequacy of the risk management framework in relation to the risks faced by the Bank.

During 2025, nine audit Committee meetings were held. Issues discussed and approved included: Approval of the 2024 IFRS Financial Statements of Silk Bank JSC; Planning of the external audit conducted by BDO Georgia; General Review of Treasury Operations; Discussion of matters related to the budgeting process for the “Mere” product; Approval of the 2025 Interim Management Report; Approval of the 2025 Interim Financial Statements; Discussion of accounting and reporting matters relating to financial assets measured at amortized cost; Related Party Transactions (Annual Mandatory Review); Annual Internal audit plan for 2026.

As at 31 December 2025 the Audit Committee is comprised by four members, including chairwoman as independent member. The Audit Committee is fully composed of members of the Supervisory Board. The rights and responsibilities of the board of the Audit Committee are:

- Facilitating the functioning of internal audit and external auditors of the Bank;
- Inspection of the integrity and accuracy of the Bank's preliminary reporting;
- Control of compliance by the Bank with the legislative and normative-legal requirements established by the National Bank of Georgia;
- Control of the existence and proper functioning of the relevant systems of internal control and financial risk management in the Bank;

- Control of Bank's financial statements and annual independent external audit;
- Quality control of external auditor's qualification and level of independence;
- Ensuring the effectiveness of internal audit and independent auditor's work and controlling the accompanying processes.

The duty of the Audit Committee is limited to control and development of relevant conclusions and recommendations for the Supervisory Board.

Internal Audit Department – provides independent assurance to the Supervisory Board and Management regarding the effectiveness of internal controls, risk management, and governance systems.

Risk Committee

The Committee is fully accountable for its activities to the Supervisory Board. The committee is a permanent collegial body, which, within its competence, ensures the proposals for the development of risk management systems; development of internal regulatory documentation of risk management; coordination of decisions and projects on individual issues of risk management under the applicable regulations.

In accordance with regulatory requirements, the Risk Committee reviews the bank's performance results on a quarterly basis. In 2025, the Committee held three meetings, while the review of the fourth quarter's results was conducted in January 2026. Matters discussed and approved included the following: Review of Financial Risks; Review of Operational Risks; Review of IT / Information Security; Review of Completed, Ongoing, and Planned Projects, etc.

The risk committee consists of three members, among whom the chairman of the risk committee is an independent member. The risk committee within the competence:

- Assesses risk strategies, both in terms of aggregated and individual risk, and provides appropriate recommendations to the Supervisory Board, including the Bank's current and future risk appetite;
- Prepares and submits reports to the Supervisory Board about the risk culture in the Bank and reviews the Bank's risk policies;
- Monitors the directorate to ensure compliance of the Bank's activities with the risk policies;
- Cooperates and monitors the activities of the risks director;
- Makes recommendations to the Supervisory Board on the effectiveness of risk strategies and policies, including the maintenance and allocation of sufficient capital for identified risks.
- Monitors capital and liquidity management strategies, as well as all types of risks, such as credit, market, operational and reputational risks, in order to be in line with risk appetite;
- Ensures coordination of the Bank's strategic goals with operational indicators and related risks;
- Provides identification and assessment of the Bank's risks;
- Develops recommendations in order to respond to risks in specific situations, based on the request of the Bank's supervisory board, other committees of the Bank or other structural divisions of the Bank;
- Evaluates Banking and other types of risks related to the Bank's operation and supervises/monitors the proper functioning of Banking risk minimization processes and makes recommendations;
- Monitors the compliance with minimum supervisory capital requirements, and assesses the readiness of shareholders in terms of increasing the Bank's capital when necessary;
- Monitors risk management measures;

- Monitors changes in external factors and adapts the risk management system; Analyzes the issue of increasing the Bank's expenses for one-time projects, which goes beyond the scope of competence defined by the charter and collegial bodies, and gives recommendations;
- In terms of recommendation, determines the issue of the amount of loss reserves, which exceeds the established norms;
- Prepares a proposal on risk appetite indicators and their value structure for the next calendar year;
- Prepares conclusions on the draft strategic plan, the investment plan of the Bank in accordance with the increased risk and, if necessary, prepares proposals for changing the structure of risk increase indicators.

Executive level committees

Assets and Liabilities Committee (ALCO)

Assets and Liabilities Committee (ALCO) is engaged in managing and supervising market risk, liquidity risk, currency risk, interest rate risk. ALCO sets and monitors compliance with external or internal liquidity requirements, plans future cash flows, sets limits to manage interest rate risk, currency risk, liquidity and solvency risks. ALCO comprises of treasury, financial risk and reporting department employees and Bank's top management. ALCO meetings are held regularly.

Composition of ALCO

- Chief Executive Officer – Chairman of the Committee;
- Head of Commercial Department and Head of Credit Department – Committee Member;
- Deputy Chief Financial Officer – Committee Member;
- Chief Risk Officer – Committee Member;
- Head of Treasury Unit – Committee Member.

Main responsibilities of ALCO:

- Efficient management of the Bank's assets and liabilities;
- Review of current and prospective liquidity positions and funding sources;
- Management of financial risks in order to achieve optimal ratio between risks and yield;
- Development of parameters for the pricing and maturity distributions of deposits, loans and investments;
- Monitoring financial risks (liquidity, interest and currency risk).

Credit Committee

Credit Committee is engaged in supervising, managing and approving credit exposures to Bank's retail, MSME, corporate and private Banking clients.

The purpose of the committee's activity is the organization, management and control of the Bank's lending process, which is based on the principles of transparency, collegiality, delegation of powers. The committee is guided by the principle of risk minimization and the Bank's profit in making decisions.

Depending on the type of loan, the Bank has 1 and 4 level credit committees, which have separately defined limits. All loans are approved at the credit committee of the appropriate level, according to the amount, after the loan applications are analyzed.

The presenter and initiator of the process at the credit committee is credit officer or the person authorized by the Chief Executive Officer without the right to vote.

A necessary condition for holding a credit committee is that the committee should include at least two voting members.

The committee has a charter that regulates its activities and includes provisions on powers, competencies, composition, work procedures, and the framework for rights and responsibilities.

Credit Committee members:

Committee level	Committee Members
IV level	1. Employee of the retail credit risk management division.
III level	2. Employee of the retail credit risk management division.
II level	The second-level credit committee is composed of the following members, to whom the review/approval of various products has been delegated by the decision of the Board of Directors, with consideration given to their limits: 1. Chief Risk Officer (with the right of veto) 2. Employee of the retail credit risk management division 3. Employee of the retail credit risk management division or employee of the micro and small business credit risk management division.
I level	1. Chief Risk Officer (with the right of veto, chairman of the committee) 2. Chief Legal Officer 3. Head of the commercial department

Responsibilities and rights of Credit Committee:

- Within the scope of authority, reviews and approves the limits and conditions of financing of clients;
- reviews and approves monitoring reports of financed projects;
- Makes a decision on the extension/restructuring of loans issued by the retail, small and medium lending department;
- Makes decisions on the partial removal of collateral from the credit security structure and/or the replacement (change) of collateral;
- Makes a decision on the initiation of legal proceedings for credits issued within the framework of its regulations (transfer to the court);
- Makes a decision on forgiving the penalty on overdue loan(s) for the client;
- Makes a decision regarding the purpose of the amount of the loss caused by the insurance accident credited to the client by the insurance company (the amount should be used to repair the collateral or to cover the loan amount) if this amount exceeds 50 (fifty) percent of the current principal amount of the loan;

- Prepares proposals for optimization of current credit processes in the Bank.

The Methodological Committee

The objective of the Committee is to organize, structure, and optimize ongoing business process through creation/updating of internal regulations in conjunction with Board of Directors.

The Methodological Committee members:

- Chief Operating Officer - Chairman of the Committee;
- Chief Technology Officer – Member/Co-chairman of the Committee;
- Head of the Training Center – Committee Member;
- Head of the Legal Compliance and Banking Products Legal Support Department – Committee Member;
- Project Manager of the Project Management Unit – Committee Member;
- Head of the Operations Department – Committee Member;
- Specialist in the Operational Risk Management Division – Committee Member;
- Head of the Credit Administration Division – Committee Member;
- Head of the Product Support Department – Committee Member;
- Corporate Secretary – Committee Member.

7. Risk Management

Management of risk is fundamental to the business of Banking and forms an essential element of Bank's operations. Risk management policies aim to identify, analyze and manage risks faced by Bank, to set appropriate risk limits and controls, and to continuously monitor risk levels and adherence to limits.

Along with the growth of the Bank, the risk management function has been strengthened. The changes implemented in the organizational structure of risk management in 2023 and 2024, which involved the creation and development of new departments, have actively started functioning. Strengthening the risk management function is an ongoing and evolving process, which includes a thorough review of the existing risk management strategy, the implementation of necessary risk management systems, and the staffing of risk management functions with qualified personnel. In the medium and long term period, the changes made in the direction of risk management will enable the bank to be more growth-oriented while ensuring the timely identification and effective management of risks.

The risk management process should provide transparent risk management process and confidence from stakeholders. Simultaneously, it facilitates the implementation of the bank's strategic objectives and positions risk management as a source of competitive advantage for the institution.

Daily risk management is supervised by the Chief Risk Officer, who itself is under the control of Chief Executive Officer. The Risk Management Department is responsible for defining, implementing, and managing the risk management system.

The Supervisory Board holds overall responsibility for the risk management framework, oversight of key risks, and the bank's risk management policies and procedures. The Board of Directors is responsible for establishing a comprehensive risk culture across the entire bank, monitoring and implementing risk mitigation measures, and ensuring that the bank operates within the defined risk parameters.

Defining and managing risk parameters is an integral part of the risk appetite framework, which includes components of risks that are both relevant and material to the bank.

The process of defining risk appetite aims to strengthen the bank's risk management capabilities, ensuring that the level of risk aligns with the bank's strategic objectives. Risk appetite-based targets establish the acceptable risk boundaries for the bank, create opportunities for value generation within defined limits, ensure systematic risk control, and support the timely identification and mitigation of risks. The bank's risk appetite is approved by the Supervisory Board.

The Board of Directors submits, or within its authority approves, risk management-related policies and procedures for the Supervisory Board's consideration. The Board of Directors is responsible for aligning the risk strategy with the bank's overall strategic goals. The Board of Directors oversees risk-related matters through various reports and committees, where key performance indicators and risk matters are reviewed and discussed. Bank identifies and manages the following risks related to its business:

Credit risk - the most material risk type for the Bank and arises from the possibility that counterparty to a financial instrument may fail to meet its contractual obligation and this failure may cause a loss to Bank. The Bank's credit risk control is carried out by the Credit Risk Department and the decisions are made on different levels of Credit Committee, which is composed by the employees of risk management department at all levels. The highest level of Credit Committee members also includes Directors of the Bank. Certain credit decisions are made by the Supervisory Board in accordance with internal policies and the National Bank's Risk Policy.

Collateral plays an important role in mitigation of the credit risk. Collateral is valued in accordance with NBG regulations and international standards and registered in public register. Appraisal of movable property is carried out by the Bank's internal appraiser, who is licensed by the relevant institution and has extensive experience in this field. From September 2024, real estate valuation is carried out by the bank's internal certified appraisers. However, in cases where regulatory requirements or other exceptions apply, the bank will engage an external appraiser with a strong reputation and the necessary qualifications.

As of 31 December 2025, total collateral for the loan portfolio, excluding third-party guarantees, amounts to GEL 136.5 million, with the following structure: real estate - 76.11%, movable property - 22.66%, Deposits - 1.23%.

The Bank currently has an internal credit model agreed with the National Bank of Georgia for one type of retail credit product. Credit-Info Georgia credit ratings are used in the loan approval process when reviewing all types of borrowers and credit products. The credit rating calculated using the bank's internal model is applied for business loans.

For Investment securities and funds placed in the National Bank and other commercial banks, Silk Bank relies on credit quality assessments provided by leading international rating agencies (Fitch Ratings, S&P Global Ratings, and Moody's) to evaluate associated credit risk.

The Bank has also introduced limits defined by risk appetite on related parties, groups of borrowers, economic sectors and products. These limits are approved by the Supervisory Board.

Financial assets on which the expected credit losses are applied:

- Funds placed in NBG;
- Funds placed in other credit institutions;
- Investment securities;
- Loans to customers;
- Issued financial guarantees;

- Other financial assets.

Liquidity risk - arises from the mismatch of the maturities of liabilities and assets. This mismatch may affect on the availability of sufficient funds to meet deposit withdrawals and other financial commitments associated with financial instruments as they actually fall due. Daily liquidity is managed by the treasury unit. The Bank also complies with short-term Liquidity coverage ratio (LCR) and Net stable funding (NSFR) coefficients as required by NBG.

Liquid funds are placed only in high liquidity financial instruments such as cash, deposits in the National Bank and local commercial Banks; The Bank also actively utilizes Investment Securities.

Market risk - is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency risk, interest rate risk and other price risks. Market risk mainly arises from open positions in interest rate financial instruments, which are exposed to general and specific market movements and changes in the level of volatility of market prices and foreign currency rates. The Bank does not have a trading portfolio and is not involved in speculative trading. Accordingly, it faces mainly interest and currency risk arising from traditional banking activities. These risks are monitored and managed by the Risk Management Department using various reporting tools and models.

Interest rate risk - The Bank faces the interest risk caused by traditional Banking activities related to the revaluation of mismatch between interest bearing assets and liabilities. The daily risk management process of interest risks is carried out by treasury unit in accordance with the framework set by Assets and Liability Committee (ALCO). Interest rate positions and “gaps” are presented by revaluation periods for each relevant currency, and interest rate risk is assessed on a monthly basis.

Currency risk - the Bank understands the risk of loss of losses due to the revaluation of the assets and liabilities caused by the exchange rate change. The Bank's strategy towards currency risk is not to get involved in speculative activity through an open currency position. The daily FX Risk management process is carried out by treasury unit in accordance with the framework set by ALCO.

Operational risk – is the risk of loss arising from systems failure, human error, fraud or external events (such as cyber attack risks, etc). Such events and/or failure may cause damage to Bank’s reputation, have regulatory or legal implications, may result in financial losses. Operational risk control is carried out by the Risk Management Department in accordance with the bank’s Operational Risk Management Framework.

The objective of operational risk management is to define acceptable risk exposure limits for the bank, identify the factors and root causes that give rise to risks, and ensure adequate capital allocation to support effective risk mitigation. The bank actively focuses on fraud risk prevention, the proper functioning of internal control mechanisms, and the minimization of operational errors. To support these goals, a Fraud Risk Management Program has been implemented, which promotes a strong corporate culture and fosters an environment in which the risk of fraud is minimized.

Prior to introducing new products, services, processes, or systems—as well as before undertaking any significant business activity—the bank conducts an appropriate operational risk assessment. In parallel, regular reviews of existing processes and products are carried out, including analysis of internal control mechanisms. These practices support the mitigation of associated risks and are based on creating an

environment that ensures clear allocation of responsibilities among involved parties and the establishment of an effective and enforceable governance framework.

Compliance risk – is a risk that Bank may not act in compliance with existing regulations, laws and agreements and may incur financial loss as part of such non-compliance.

Bank has approved risk management policies, procedures and established governance structures to manage these risks.

Supervisory Board has overall responsibility for the oversight of the risk management framework, overseeing the management of key risks and reviewing its risk management policies and procedures. Board of Directors is responsible for implementing overall risk culture within the organization, monitoring and implementing risk mitigation measures, and ensuring that Bank operates within established risk parameters. Board of Directors presents to the supervisory board or approves independently, within its delegated authorities, risk related policies and procedures. Board of Directors is responsible for aligning risk strategy with Bank's overall strategy. Board of Directors controls risk related issues via various reports and committee meetings where risk related topics and performances are related.

Stress Testing

Stress Test, i.e. simulation of crisis is an instrument allowing to assess impact of potential unforeseen development on the Bank as a whole, as well as on particular elds of its activity. Those are used to enable Bank adequately assess and manage risk, evaluate capital adequacy and create buer necessary to maintain capital adequacy, if needed.

Hence, stress-testing is a significant instrument for assessing sustainability and risk-prole of the Bank.

Stress test results are considered in terms of:

- Profit and Loss - one year projection is made, taking into account stress test effects;
- Interest Rate Risk – one year effect is calculated considering increased interest rates;
- Capital Adequacy - Supervisory capital is calculated by taking into account stress test effect both on supervisory capital elements itself and effects coming from post stress corrections.

8. Remuneration

Remuneration system involves certain forms of remuneration in compliance with the occupation, including the fixed remuneration, variable remuneration(bonus) and additional benefit (including and not limited to: the additions defined under the applicable legislation/internal regulations, pension contribution, business trip, professional development, health insurance, other forms of material incentive and other types of benefits).

The fixed part of remuneration is salary, while variable part may include bonuses (monthly, quarterly, one time), annual bonuses based on the performance results of the Bank and other motivational payments.

The ratio of fixed and variable parts in the pay structure varies depending on the following factors:

- Variable parts of remuneration are higher on positions, which are directly involved in Bank's customer service (Front Office), such as: Credit Officers; Branch and Treasury Unit employees.
- The fixed remuneration is the main part back office employees. They may be granted for promotional pay as well as annual bonuses based on the performance results of the Bank.

Remuneration for the Supervisory Board members complies with their involvement, assigned responsibilities, efforts made and time resource spent. Remuneration for the Supervisory Board members includes fixed remuneration, the amount of which is fixed by the general meeting of shareholders.

The remuneration of members of the Supervisory Board and Bank employees is subject to annual review. The Bank's Supervisory Board defines, approves and controls the Bank's remuneration policy, including remuneration of Board of Directors. The Supervisory Board reviews and approves the staff schedule and makes a decision on the remuneration of the members of the Bank's board of directors.

The remuneration of the Bank's Board of Directors consists of a fixed remuneration corresponding to their professional experience and organizational responsibility, assigned obligations and job specificity.

The Bank's Board of Directors ensures the implementation of the remuneration policy and determines the systems and motivation models for the Bank's employees (except directors). The Directorate approves the salary scheme of the Bank within the framework of the remuneration fund approved by the Supervisory Board, reviews and approves proposals pertaining improvement of remuneration system and other models of motivation, reviews assessments and reports of remuneration system monitoring bodies (both internal and external) and so on.

Material risk takers (MRT)

The Bank's material risk takers are defined by assessing the significance of their professional activity on the Bank's risk profile. All types of risks are important, including prudential, operational, and/or reputational risks.

According to the rules and recommendations of the NBG and the Bank has developed qualitative and quantitative criteria for determining material risk takers, as a result of which the following persons were identified as material risk takers:

- Supervisory board members;
- Members of Board of directors;
- Employees whose activities have a significant impact on the Bank's risk profile. 14 positions were identified as material risk takers (in addition to the top management members listed above).

9. Environmental, Social, and Governance (ESG)

Due to the Bank's size and volume of operations, by the year 2025 the Bank has not made significant changes in ESG related matters. 2025 ESG report is available on Bank's web-site: www.silkbank.ge.

As of 31 December 2025, JSC Silk Bank has an outstanding issued loan portfolio to micro, small, and medium-sized enterprises amounting to GEL 41.2 million (of which GEL 11.5 million is issued to women entrepreneurs), with a total of 3,035 loans (including 1,202 loans to women entrepreneurs). By portfolio structure, the outstanding balance of loans issued to small and medium-sized enterprises amounts to GEL 15.6 million (of which GEL 2.7 million is issued to women entrepreneurs), with 34 loans in total (including 10 loans to women entrepreneurs), while the outstanding balance of loans to micro enterprises amounts to GEL 25.6 million (of which GEL 8.8 million is issued to women entrepreneurs), with a total of 3,001 loans (including 1,192 loans to women entrepreneurs).

As of 31 December 2025, the total outstanding balance of collateralized loans issued to micro, small, and medium-sized enterprises amounts to GEL 32.7 million (of which GEL 8.2 million is issued to women entrepreneurs). By portfolio structure, the outstanding balance of collateralized loans issued to small and medium-sized enterprises amounts to GEL 15.5 million (of which GEL 2.7 million is issued to women

entrepreneurs), while the outstanding balance of collateralized loans to micro enterprises amounts to GEL 17.2 million (of which GEL 5.5 million is issued to women entrepreneurs).

The weighted average annual interest rate on loans granted to women entrepreneurs in the small and medium-sized category is 12%, while the corresponding rate for male entrepreneurs is 12%. For the micro category, the weighted average annual interest rate on loans granted to women entrepreneurs is 20%, whereas for male entrepreneurs it is 22%.

As of 31 December 2025, the outstanding balance of deposits attracted from micro, small, and medium-sized enterprises amounts to GEL 39.4 million (of which GEL 2.1 million is attracted from women entrepreneurs), with a total of 2,821 deposits (including 877 deposits held by women entrepreneurs). By portfolio structure, the outstanding balance of deposits attracted from small and medium-sized enterprises amounts to GEL 34.8 million (of which GEL 24 thousand is attracted from women entrepreneurs), with 146 deposits in total (including 8 deposits held by women entrepreneurs), while deposits from micro enterprises amounts to GEL 4.6 million (of which GEL 2.0 million is attracted from women entrepreneurs), with a total of 2,675 deposits (including 869 deposits held by women entrepreneurs).

10. Protection of Human Rights

The Bank acknowledges and fully upholds the human rights established by the Constitution of Georgia and the Universal Declaration of Human Rights, and respects all individuals without discrimination based on race, skin color, language, gender, religion, political or other views, national, ethnic or social origin, property or social status, or place of residence. Protection of human rights is a fundamental value of the Bank.

The Bank has established policies and procedures in accordance with the Law on Protection of Consumer Rights, the Law on Personal Data Protection, and the Labour Code of Georgia.

Customers – the Bank is committed to protecting both employees' and customers' rights. It has implemented policies defining the process for receiving, assessing, and resolving customer complaints.
